All Efforts to Break Through the Galician Lines are Repulsed.

Teutons Succeed in Crossing the Dniester, but Further Attempts to Advance are Fruitless—On the French Front the Allies Gain Nearly a Mile of Trenches in the Souchez Sector and Capture Many Prisoners.

[BY ATLANTIC CABLE AND A. P.]

**PETROGRAD (via London), June 20.**—The following Russian official war statement has been given out here:

"There is no change in the Shavli region. West of the Niemen river the German attacks in the direction of Suwalki and Kalwary on June 17 and 18, delivered with small forces, were repulsed.

"In the region at the mouth of the Rawa River, the enemy began an attack on the evening of June 17 but everywhere was repulsed by mid-night.

"In Galicia, on the Tanew front, there were encounters with the advance guard. In the direction of Rawa Ruska on the night of June 17-18, there were actions in the region of Nowina and Ulicko. From details of the battle in the region of Lubecow, it appears that our cavalry on June 15 made an exceptionally dash charge against the German infantry, during which the Ninety-first German regiment was entirely sabred or dispersed. This attack caused a panic in the German ranks and arrested their offensive.

"On the front Kamennybrod-Komarno, advanced detachments of the enemy attempted on June 17 to cut their way through the lines of our troops, but were repulsed. An artillery and rifle duel continues.

"On the Lower Nizhny, near the villages of Goryslav and Dolina, the enemy threw great forces across the Dniester River, but all his attempts to debouch from the deep winding Dniester were successfully repulsed. The village of Koropet and Snovidow. Between the Pruth and the Dniester Rivers, there were stubborn actions. Our troops on June 17 progressed on the front Onut-Boliar."

## FIGHTING ON DNIESTER OF STUBBORN CHARACTER.

[BY ATLANTIC CABLE AND A. P.]

**PETROGRAD, June 20 (via London, June 21).**—The following official communication was issued this evening:

"In the Shavli region and west of Niemen continuous fighting of a local character continues.

"On the Narow front, June 19, there was artillery firing near Ednorozets and Grouduisk.

"On the 18th and 19th the enemy conducted an offensive with strong forces in the direction of Rawa Ruska and on the front of the Grodek Lakes in Galicia, the enemy forces being largely recent arrivals from Belgium.

ANCIENT EGYPTIAN SCARABS  
AND OTHER JEWELS STOLEN  
FROM EXPOSITION.

[BY A. P. NIGHT WIRE.]

**SAN FRANCISCO, June 20.**—Ancient Egyptian scarabs, which cannot be duplicated, diamonds and emeralds and other rare jewels to a total value of \$15,000 were stolen from the Domestic Arts and Crafts section of the Varied Industry Palace of the Panama-Pacific International Exposition Saturday night, it became known today.

The stolen articles were the property of Edgar Perera of New York City and had been loaned to the exposition for exhibition purposes. No clue as to the identity of the thief has been discovered.

Benjamin F. Isherwood.

**NEW YORK, June 20.**—Rear-Admiral Benjamin Franklin Isherwood, who was the first chief of the bureau of steam engineering in the United States navy, died yesterday at his home here of general debility, aged 82 years. He entered the navy in 1844. In 1861 he became chief engineer and served in that capacity until 1869, covering the entire period in the Civil War.

STREET CAR IN WILD PLUNGE.

[BY A. P. NIGHT WIRE.]

**SEATTLE (Wash.), June 20.**—The conductor was probably fatally injured and the motorman and six passengers were seriously injured when a car on the municipal street railway line operating south of Seattle to Lake Burien overturned shortly before midnight, after running wild for three miles.

The motorman lost control on a long, steady descent near Riverdale, just south of Seattle, the car passed on to a derailing switch, then overturned after plunging beyond the end of it. The conductor, H. G. Windsor, was hurried to a hospital, but is not expected to recover.

## TRAINED NURSES IN CONVENTION.

[BY A. P. NIGHT WIRE.]

**SAN FRANCISCO, June 20.**—More than 600 trained nurses, representing the American Nurses' Association, the National League of Nursing Education and the National Organization for Public Health Nursing, are in San Francisco today from all parts of the United States to attend the annual convention of the three organizations which open tomorrow morning. Joint sessions of the three organizations are scheduled to be held tomorrow, and among the speakers on the programme are Mrs. Frederick G. Sanborn, president of the International Council of Nurses, and Miss Sophie Palmer, editor of the American Journal of Nursing.

Big Loss.

## HARD BLOW TO SHIPPING.

[BY ATLANTIC CABLE AND A. P.]

**ROTTERDAM WILL NOT RECOVER FROM WAR IN FIVE YEARS.**

Number of Vessels Clearing in 1914 and 1915 Show an Enormous Decrease, but Those Doing Business on the Rhine are Not Affected so Badly.

[A. P. FOREIGN CORRESPONDENCE.]

**ROTTERDAM, June 5.**—Official prediction is made by the Rotterdam Chamber of Commerce that "the shipping at this port has been reduced to such an extent that it may safely be stated that it will not recover its former status in less than five years."

This comment is made in the annual report of the Chamber of Commerce, which shows that during the year 1914, five months of which were affected by the war, the number of ships clearing in and out of this port was reduced tremendously.

"It is feared," the report adds, "that 1915 will be even more unfavorable to this tremendous universal struggle is not terminated."

The weekly clearances in and out of the Nieuwe Waterweg, the channel which leads to Rotterdam, is now reduced to about ninety ships of all kinds, as compared with a weekly business of over 250 ships a year ago.

During the year ending December 31, last, 15,342 steamers and 284 sailing vessels cleared in and out of the registered ports passed through the Nieuwe Waterweg. In 1913, however, 22,178 steamers and 467 sailing vessels, totaling 27,545, cleared in and out. This is what five months of hostilities did to a commerce that had previously been growing every year.

Even the number of fishing craft was 3387 in 1914, as against 3344 in 1913. The only gain for the year 1914 was one in average tonnage which increased 1.3 per cent. over the year before.

RHINE TRADE BETTER.

In Rhine shipping, however, the report does not show the port of Rotterdam to have suffered so severely. In 1911 Rotterdam claimed 82 per cent. of the business done between Dutch ports and Germany; in 1912 the figure was 81 per cent. In 1913, 81.5 per cent., while in 1914 it had dropped to only 73.5 per cent. In 1911, Rotterdam did 15,945,547 tons of business with Germany via the Rhine. This was the highest figure ever known. In 1914, notwithstanding the war, there were 15,335,932 tons of business done between Rotterdam and the Rhine cities.

Rotterdam is a port, pure and simple, albeit a great one. It is new; it is ugly; it is noisy; it is dear. Few people who can afford to live elsewhere live in Rotterdam. An increasing number of those whose daily business requires their presence in Rotterdam, live in The Hague, and go over and back every day, by electric tram—a pleasant journey of only twenty minutes. The Rotterdamers are, however, inordinately proud of their harbor. They are the property, of course, of the city; every possible public service in Holland is jealously administered on the basis of local autonomy. The modern improvements of the harbor, which include besides the new waterway, the very newest appliances for loading and unloading, were begun in 1870, and cost the city \$24,650,000.

At present work is going rapidly forward on what is known as the Waal Harbor, the latest addition to the list of railway, warehouse, petroleum, inland commerce, Rhine salmon fisheries, Rhine-Meuse and other special harbors. It is intended as a transhipment center for Rhine traffic outward bound, and draws its name from the River Waal, which is the name the Dutch give to the lower Rhine, as it passes through Holland.

## TURKS REPLACE DEFEATED ARMY.

Face Russians on Caucasus with Entire New Force.

Not Bothered by Campaign in Dardanelles.

Allies' Losses at Avl Burnu Reported Heavy.

[BY ATLANTIC CABLE AND A. P.]

**TIFLIS, June 19 (via Petrograd and London, June 20).**—Operations in the Dardanelles apparently are having no effect on the Turkish activity along the Caucasian front. The Turks are reported to have replaced in a comparatively short time the Ninth Army Corps, which was captured by the Russians at Sari Kamyah. They also have restored and supplied with ammunition the Tenth and Eleventh corps, outside of which line the First and Sixth corps and the remainder of Hall Bey's army, which was defeated at Dilman, now are drawn up. In addition to attempting to prevent the Russians from outflanking Erzerum, the Turks are undertaking offensive maneuvers for Armenian massacres in the Van district, have surrendered voluntarily to the Russians and are being deported to the interior with their dependents.

LOSSES ARE HEAVY.

[BY WIRELESS AND A. P.]

**BERLIN, June 20 (via wireless to Saville, N. Y.).**—The correspondent of The Associated Press in the Dardanelles has transmitted the following in an undated dispatch:

"Field Marshal Liman von Sanders, the German commander, is highly optimistic regarding the outcome of the operations. He declared to the Associated Press that the British and the British unable to make progress, but they are losing ground daily."

"The British are unable to assist in the land operations because of the submarine menace, the British hold on Avl Burnu apparently is not as serious as it was."

MEDAL WINNERS GIVEN A SHOCK.

CANNOT USE FACSIMILES FOR ADVERTISING WITHOUT PERMISSION OF CONGRESS.

[BY A. P. NIGHT WIRE.]

**SAN FRANCISCO, June 20.**—Winners of gold, silver and bronze medals and other awards of merit at the Panama-Pacific International Exposition have been officially informed that they may not use facsimiles of their prizes for advertising or other purposes without a special act of Congress.

The reason is that the medals and diplomas are being manufactured by the United States government at Washington, and the director of the mint there has informed the exposition authorities, in response to a request for information, that the reproduction of any product of the United States mint is illegal.

Heretofore medal winners at expositions have been allowed to use facsimiles of their awards for advertising purposes.

MADRID PARLOR.

Man Who Killed President Wilson's Classmate Must Not Drive Auto for Two Years.

[BY A. P. NIGHT WIRE.]

**LITTLE ROCK (Ark.), June 20.**—A pardon conditioned on his not driving an automobile for two years and after that only at a "moderate rate of speed," was granted by Gov. Hays today to J. B. Maddox, convicted of involuntary manslaughter in the killing of J. H. Harrod by his automobile.

Any officer who is Maddox driving an automobile during the next two years is authorized to arrest him, and he will be compelled to serve his term in the penitentiary, according to the Governor.

Maddox, son of a wealthy planter, was charged with murder, it was said.

Sever football players in Great Britain are enrolled in many of the army corps. In London the Tottenham Club record shows that twenty-two of its thirty-five players have enlisted. Returns issued by the Lancashire Football Association show that there are 470 players connected with organized clubs serving with the colors in that country alone. In Scotland the report of the Scottish Football Association shows that approximately 1500 Scottish players have enlisted, and 2000 non-playing members of the clubs have also joined the colors. ## CRISIS OF GERMAN DRIVE IN RUSSIA IS AT HAND.

[BY ATLANTIC CABLE AND A. P.]

**LONDON, June 20.**—With headquarters at Pless, in Southeastern Silesia, the German Emperor is said to be personally directing the Austro-German operations in Galicia against the Russians.

The crisis of the Austro-German drive is at hand. Grodek is secure in the possession of Gen. Von Mackensen's men and the Germans and the Austrian corps under Field Marshal Von Arz are reported by Berlin to be storming and capturing one after another of the Russian trenches along the entire front before Lemberg, extending from Rawa Ruska, in the north, to Janow, which lies only eleven miles from the Galician capital.

This front is 24 miles in extent and the fighting here has been of the most stubborn character. To the south between Grodek and the Russian lines are being hard pressed.

Although the Russian War Office has had little to say regarding the Galician campaign, unofficial reports from Petrograd declare that the rapid retirement of the Russian forces has been accomplished without any demoralization whatsoever, and intimate that the Russian lines have been straightened and put in a state of readiness to meet the further advance of the vast forces which are being flung against them.

Both French and British in the western war zone are on the offensive and heavy artillery engagements with the Russians.

From Tiflis come advices that the Turks have replaced their army corps which was captured by the Russians at Sari Kamyah, restored their supplies of ammunition and are concentrating to give further battle to the Russians.

## MEDITERRANEAN FOR SUBMARINES.

GERMAN ADMIRAL DECLARES IT WILL BE NEXT FIELD OF OPERATIONS.

[A. P. FOREIGN CORRESPONDENCE.]

**AMSTERDAM, May 20.**—The next important field for German submarine operations will be in the Mediterranean, declares Vice-Admiral Kirchhoff, the German navy in an interview with the correspondent of the Dreden Anzeiger. "Coming events before the Dardanelles," adds the vice-admiral, "will be of a nature never before witnessed in warfare, and will have a potent influence on the whole course of the war."

Discussing the Lusitania disaster, Kirchhoff remarks that the chief reason to be drawn is as to the unseamanlike character of the British seamen who are unable to rise to an emergency like the German sailor.

"The last ten days of the month of May," says the correspondent, "have produced positively brilliant results. In one week alone our submarines sank thirty-two enemy ships, including many of great tonnage, around the coast of Great Britain, and the total of these successes now exceeds 250."

"But the greatest influence on the reduction of exports to England and on the shipping of all nationalities to British harbors was exerted by the destruction of the Lusitania on May 7. Within the last few days much has been achieved, but little emphasis has been laid on the dangers which threaten those who embark in large ships."

"The peril is not so much from submarines as from the lack of discipline on the part of the English crews and the imperfect nature of the life-saving apparatus. About half the crew of the Lusitania was saved, or, as we should say, saved themselves, while scarcely one-fifth of the passengers escaped. That says much. Whoever travels by English ships can save himself as best in the event of a mishap. That was the case before, and is still the case now."

WARDEN'S WIFE IS MURDERED.

MRS. EDMUND ALLEN BRUTALLY KILLED AT JOLIET.

Crime is Committed in Her Private Apartments in the Penitentiary. Was Formerly Odette Bordeaux, a Comic Opera Star—A Negro Trusty is Suspected.

[BY A. P. NIGHT WIRE.]

**JOLIET (Ill.), June 20.**—Mrs. Edmund Allen, the young wife of the warden of the State penitentiary here, and former comic opera favorite, was found dead and burned today in her bed in the warden's suite in the penitentiary.

With the left temple and the rapidly with which the flames charred her body almost beyond recognition gave rise to the belief that she had been stunned by a blow on the head, and her night clothes soaked with alcohol and limited.

A bottle which in the room, together with a heavy water bottle which might have been the instrument with which she was struck. An examination showed she had not been outraged.

Mrs. Allen was formerly a prima donna of a company presenting "The Merry Widow." Her maiden name was Odette Malree Bordeaux, and her home, New Orleans, where an aunt and cousin still live. She was 34 years old.

Joseph Campbell, a negro convict, who acted as the Allen's house servant, and who lived in the warden's suite, was placed in solitary confinement after a committee of prison officials had investigated the fire. He will be charged with murder, it was said.

## GERMANS ARE ADVANCING STEADILY IN GALICIA.

Russians Lose Twenty-four Miles of Trenches and City of Grodek.

Muscovites are Now Reported to be Making a Desperate Stand at Zolkiew and Rawa Ruska, North of the Lemberg Fortress—On the Western Front the Trenches Claim Allies Have been Repulsed.

[BY ATLANTIC CABLE AND A. P.]

**BERLIN (via London), June 20.**—The armies under Gen. Von Mackensen are continuing their advance upon Lemberg, the Galician capital, after capturing Grodek, and have taken Russian trenches, one after another, along a front of almost twenty-four miles to the northwest of the city, where the Muscovites are making a desperate stand, according to a statement issued today at the headquarters of the German army staff.

"Western theater: North of La Bassee Canal and on the front north of Arras, we repulsed several partial attacks with sanguinary losses for the enemy."

"In Champagne, a French division, which attacked after blowing up a trench, was shot down. French operations against our outposts in the forest of Farroy led to local fighting, in which we maintained the upper hand."

"In the Vosges, Munster was heavily shelled by the French. Renewed enemy attacks in the Focht Valley and south of that point failed. An enemy aircraft, one of a squadron which dropped bombs on Langheim in Flanders, without doing damage of military importance, was shot down. Several others were obliged to return. Another enemy aircraft was shot down near Vouziers, in Champagne."

"Eastern theater: Russian attacks against our lines in the vicinity of Szwabie and Augustow were beaten off."

"Our advance in small divisions resulted in the capture of advanced positions of the enemy near Budzinski and Zalesie, east of the Przasnys-Mysynsk road."

"Southeastern theater: South of Pilsne, troops under Gen. von Woyrich have taken several advanced enemy positions during the last few days."

"The armies under Gen. von Mackensen have taken the Grodek position. Early yesterday morning German troops and the corps of Field Marshal Von Arz commenced an attack upon strongly entrenched enemy lines. After stubborn fighting enemy trenches, one behind the other, almost along the entire front extending over a distance of thirty-five kilometers (twenty-four miles), north of Janow (eleven miles northwest of Lemberg), Bialystok and Obedynsk and southeast of Rawa Ruska (thirty-two miles northwest of Lemberg) had been stormed."

"In the evening the enemy was thrown back behind the high road to Zolkiew, north of Lemberg and Rawa Ruska. Under pressure of this defeat the enemy also is weakened in his communications. Between Grodek and the Dnieper marshes the enemy is hard pressed."

"Between the Dnieper marshes and the mouth of the River Str, the enemy has evacuated the southern bank of the Dnieper."

## NO DIPLOMA TO YOUNG ANANIAS.

Nye Oberg, Biggest Fake's Author, Excluded.

Final Chapter in Amazing Riverside Story.

"Champion Peace Orator" is Caught by Telegram.

Inspired by a desire for glory, Nye Oberg, president of the student body of Riverside Polytechnic High School and a senior, went to a small job printing office and had letterheads printed of the "Middle West Peace Society"—a mythical organization. On one of these he wrote an invitation to himself to compete in a (mythical) international peace oratorical contest to be held in Kansas City. Exhibiting the letter to his friends, he worked up so much feeling in favor of his going and against Principal Hugh Law, who opposed it, that money was furnished him for the trip and Prof. Law is reported to have resigned. Oberg took the money and boarded a train for Kansas City which did not arrive there until three days after the contest was supposed to have been held. To cover up this discrepancy he wired from Wellington, Kan., en route, that he had won over thirty-six contestants from all parts of the country. When he reached Kansas City he bought a silver loving cup and had it appropriately engraved as a trophy of the contest. Returning to Riverside, he exhibited this cup and was given an ovation, banqueting by the Riverside Peace Society at the Mission Inn, voted the highest service medal by the student body, honored by the townspeople and invited to deliver his peace oration at local churches, which he did with much eclat. Then, confronted by proof that he could not have been in Kansas City at the time he claimed, he confessed the hoax before the entire student body and signed a complete written confession.

Conspicuous by its absence from the list of graduates of the Boys' Polytechnic High School of Riverside, is the name of Nye G. Oberg, senior, president of the student body and erstwhile holder of the "international peace trophy championship."

Under the last glittering distinction, Oberg basked for nearly a week in the adulation of practically every man, woman and pretty High School girl in Riverside. Newspapers all over California told of his alleged exploit. When his huge hoax was finally exposed, through his own oversight in the matter of a telegram, there was a swift shift in the pendulum of popularity.

Not the least notable of the first effects of Oberg's amazing yarn was the reported resignation of Principal Law, who evidently determined that it would be better for him and the school to part company because of the bitter criticism heaped upon him as a result of his opposition to Oberg's determination to go to Kansas City to participate in the alleged contest. This opposition was based on the premise that the orator would need all of his time to prepare himself for graduation. Principal Law has been most completely vindicated, for Oberg has failed in physics and the Board of Education has determined that he is not entitled to a sheeplekin. There was a complete reversal of feeling when it was learned that Principal Law's fears that Oberg's claims were not genuine proved to be well grounded.

**SMOKED OUT.**  
The fatal defect in Oberg's carefully laid plans was his telegram from Wellington, Kan., sent on Friday night, June 4, telling of his "victory" at Kansas City on the same night. The "invitation" to participate in the contest, written by himself on a letterhead of the "Middle West Peace Society," had scheduled the event for Friday night, so it was necessary for it to come off on time.

It was known by the faculty that Oberg had not left Riverside until Wednesday night, and a fast Santa Fe train was only as far east as Wellington when the contest should have been held and won. At the operation at Wellington sent the message West, while Oberg continued his bootless journey to Kansas City, arriving Saturday morning, as he afterwards confessed.

On his return to Riverside on Monday, the orator displayed a silver cup, bearing the inscription which proclaimed him victor in a notable contest. He accounted for the puzzling telegram by ascribing it to an error made in relaying it at Wellington, where the Kansas City date line was alleged to have been dropped.

This declaration led the Riverside Western Union operator to make an investigation, and confirmation that the message was filed at Wellington was received. An investigation set on foot by local Santa Fe officials disclosed the fact that Oberg's train reached Wellington at 11:10 o'clock Friday night, and a liberal investment in telegrams by Vice-Principal George W. Scott failed to bring to light any information concerning the holding of an oratorical contest in Kansas City.

Armed with this confirmation of the doubts they had entertained from the first, the members of the faculty summoned Oberg before them, and after putting him through a sweating process, got the facts.

**RECIPIENT OF HONORS.**  
The facts came to light too late to forestall the numerous functions held in honor of the orator, who was feted at the Mission Inn by the Riverside Peace Society and honored by the student body. His admiring schoolmates voted him the medal for having done the most for his school during the current year, thus wresting from

Nye Oberg.

Polytechnic High School boy, who boomed the entire city of Riverside and most of California with a faked story of having won an international peace oratorical contest at Kansas City.

Meredith House the honors that seemed sure to go to him for his athletic achievements. In addition, they raised a purse to repay the public-spirited citizen who had loaned Oberg the money on which he made his Kansas City trip. After confessing the whole affair before the student body, the money thus raised was returned by Oberg, and House was made the recipient of the medal. The money will now be used for the agricultural department of the school.

## FEAR IS FELT FOR SERGEANT.

FAILS TO ANSWER THE POLICE ROLL CALL.

For First Time in Twelve Years Officer Missing Assembly—Wide Search Instituted in Unavailing Alarm Spreads Through Department, then Comes Word of Hope.

**Marriage did it!**  
Police Sergeant C. E. Jackson had the most remarkable record for punctuality in the police department. He was never late for twelve years at roll call, never missed a day from sickness, never asked for leave of absence, and never appeared in the police station without his uniform.

Yesterday morning, Lieut. Krieger called the roll. When he came to the name "Jackson" he muttered it with an indifferent accent, certain the shout "Here" would come.

No answer. Lieut. Krieger looked up and spoke loudly: "Sergeant Jackson."

In that room, nothing could have been more scandalous than the absence of Sgt. Jackson. Not even at the time when some prankish policeman overturned a bottle of formaldehyde in the room, causing a terrific exodus was the excitement so great. The lieutenant called the sergeant's home, and he was not there. His closest friend was caught on his beat, and questioned. He was as surprised as any. The alarm spread throughout the department. Sgt. Jackson was missing, and death or violence must be the explanation.

While the search was in progress, a telegram came to Lieut. Krieger. It said: "Married, back for roll call tomorrow, Sgt. Jackson."

The price of rice and old shoes will rise today.

## HONOR NEWCOMERS ON THE FOURTH.

NEW IDEA OF CELEBRATING INDEPENDENCE DAY IN SCHOOLS.

The patriotic programme, arranged by the Civic Center League for the Fourth of July, embraces services in four city high schools, where the feature of each programme will be the "Declaration of Citizenship" by the recently-naturalized citizens. The programme committee has arranged to have a number of interesting speakers address those assembled, and the league will endeavor to establish a new meaning to Independence Day, making it more of a welcoming day for the newcomers into the freedom of this great republic.

Services will be held in Manual Arts, Los Angeles, San Pedro and Hollywood high schools. The speakers have been chosen from Protestant, Roman Catholic and Jewish churches, and from leaders in education and law.

Independence Day services will in reality commence the 28th, 29th and 30th insts., when groups will gather in the high schools for different celebrations. On the 28th and 29th inst. representatives of the various nations will express in dramatic form the contribution each nation brings to the American ideal, revealing the best which the old world can and has given to the new world. Wednesday evening, the 30th inst., there will be an exhibition in the Los Angeles High School for the June class of new citizens. Throughout these three days of celebration, there will be an exhibition in the Los Angeles High School, showing what the United States government is doing for the immigrants.

## WANT LESS EXPENSE.

Apartment House and Hotel People Now Propose to Charge for Telephones and Lights.

That the defeat of the proposed minimum gas rate by the Los Angeles Apartment House and Hotel Association was but the first step in a general movement to reduce operating expenses is the statement of P. A. Young, president of the association. A systematic campaign is already under way to prevent further building of apartment houses and hotels and to make charges for both telephones and electric lights.

Joseph Arndt, president of the Los Angeles Efficiency Club, and J. W. Sanger of the Sanger Advertising Service will address the meeting of the association tonight in the Mozart theater building.

## TROPICO PLANS GAY CARNIVAL.

Generous Support is Given Knights of Pythias.

Streets in Gala Attire for the Celebration Thursday.

Elaborate Programme to End with Street Dancing.

Citizens of Tropico are making extensive arrangements for the Knights of Pythias carnival to be held next Thursday. The enterprise, which is promoted by Visor Lodge, K. of P., assisted by the Glendale lodge, is receiving the hearty support of the general public and of the city officials.

The Tropic trustees voted a fund for the carnival committee. A contract for decorating and illuminating the streets has been awarded and the work is progressing rapidly. San Fernando road from Central avenue to Tropico avenue will be brilliantly lighted.

The committee in charge of the carnival consists of some of Tropico's most enterprising citizens: George Toxas, chairman; Frank H. Davis, secretary; C. C. Rittenhouse, Robert Banner, Harry Shaffer and Charles C. Hapgood.

Los Angeles will send a big delegation. There will be two Pythian bands to furnish music. The Uniform Rank Knights from Los Angeles will give an exhibition drill. Silver Star Lodge of Los Angeles, the famous Los Angeles police lodge of uniform rank, is also to give a drill during the afternoon festivities. Another drill that attracts much attention will be given by the famous patrol from the Los Angeles B. O. K. K. lodge. During the attractions this patrol will give

tractions for 2 o'clock Thursday afternoon at the playgrounds.

At 5 o'clock p.m. the Pythian Sisters will serve a cafeteria dinner in a vacant store room. Chicken pie will be on the menu. Mrs. B. F. Cook is chairman of the dinner committee. Her assistants are Mrs. William Gould and Mrs. George H. Howe. The public always is interested when it learns that the Pythian Sisters are to give a dinner.

Mrs. Cook and her efficient committee have arranged to serve sandwiches and coffee in connection with the dinner for those of the visitors who desire merely a light lunch. The committee holds a meeting each afternoon to perfect plans. Frank Davis, secretary of the carnival, is aiding the women in preparing the menu. He has visited some of the finest poultry ranches in the valley and contracted for fat fowls.

A gala spirit will be promoted during the evening when there will be dancing on the streets and confetti "battles." The motion pictures "Damon and Pythias" will be shown.

# "For its work and its policies"

The Standard Oil Company (California) has been awarded many honors for its high grade products exhibited at the Panama-Pacific International Exposition, but the one it prizes most—the one in which it feels the deepest sense of gratification—is the special award—"for its work and its policies."

## Gold Medal of Honor

This means that its treatment of its employees, its dealings with the public, its attitude toward competitors, its service to its patrons, its methods of producing, transporting, and refining petroleum—in short, the company's business morals and practices—have been found worthy of the special praise of a great national jury of awards.

The company is justly proud of this signal honor as a recognition of the fundamental policies under which it has operated from the beginning.

When will you give Sanatogen the opportunity to help him, or her, or you?

Col. Harry Watkinson, the famous Indian, writes:

"I feel it is my duty to state that I have made a thorough trial of Sanatogen and find it to be a most effective and useful tonic. I do not think I could have recovered my vitality, or I have done, without this Sanatogen. It is a most effective tonic and a most useful tonic."

Grand Prize, International Congress of Medicine, London, 1913

Sanatogen is sold by good druggists everywhere in doses from \$1.00 up

What a happy thought prompted that decision! He wasn't his "old self" at all—and try to mask it as he might, his face showed only too well how poorly he felt. And so when a friend—with conviction born of experience—spoke of Sanatogen, they "put him on Sanatogen."

Sanatogen—combining the tissue-building properties of a FOOD with the invigorating qualities of a TONIC—rejuvenated his appetite, improved his digestion, brought rest to his nerves, made good the over-draft upon his energies—and little by little brought back that old-time vigor and sprightliness and joy in living.

Perhaps you have not yet had this happy thought—perhaps you haven't yet "put him on Sanatogen."

Then simply let us tell you this: Over 21,000 physicians have testified in writing to the value of Sanatogen after having observed its effects in daily practice. So, too, have hundreds of famous men and women whose very names must be convincing—people who know from personal experience the restorative help that Sanatogen gives. It is a verdict that cannot be mistaken.

in the world is the result of His spirit  
and teachings, hence the burden of  
proof is on those who question His  
divinity."Could or would a bad man have  
given to the world the Sermon on the  
Mount, the Golden Rule, the parable of  
the Good Samaritan? Would a de-  
ceiver have lived for the good of oth-  
ers or have prayed for his enemies in  
the hour of death? Would a good  
man have claimed to have come down  
from heaven and have received di-  
vine honors from men? Could the  
same environment that produced  
Judas and Barabbas, the Pharisees and  
Saducees have produced Jesus? Let  
us admit the truth that He is the Son  
of God."REV. CHESTER FERRIS.  
PARK CONGREGATIONAL.TODAY SWEEPS YESTERDAY INTO AD-  
VANCE. TODAY IS THE MOTHER OF TO-  
MORROW. OUR TODAY IS FOR CHRIST.Rev. Chester Ferris, pastor of Park  
Congregational Church, preached yes-  
terday morning on "Today." He said  
in part:"Would you measure the value of  
today? Visualize the days in the life  
of the Master, for then the span of  
lighted time becomes radiant with  
meaning. A today then with Christ,  
consider the spirit of that day.It will be serene, confident, tranquil,  
begun and ended with Him, all car-  
cast upon Him. Fear and anxiety  
shall be no visitor, for His Father  
and He are one, and know what things  
we have need of." Surely His today  
will be pure and sober, righteous and  
peaceable, and full of love."The outlook of today, God's  
fresh alluring gift is it. Not travelers,  
but vineyardists, not passengers, but  
workers in the boat's crew, not feast-  
ers, but producers are we. Not time-  
killers, nor time-servers, nor time-  
wasters, dare we be in these brief,  
fleeting hours, for a period of crea-  
tion is here which shall not pass this  
way again. Weavers are we executing  
the tapestry of the plan from the  
Mount.""The work of today, Yesterday is  
continued in a new unfolding of God's  
plan for the life. Here is no discon-  
tinuity, isolated purposes, but a con-  
tinuous, unbroken purpose, a plan  
which is a thrust forward of the  
personal mission. A social day is this  
for Christ. We go forward with the  
others. Togetherness is understood  
and accepted. None worketh to him-  
self nor by himself. Cells are we in  
the family as a unit, humanity. We  
suffer in man's maladjustments, with  
the visible fruitage of poverty, broken  
careers, failures; and we grasp for  
spirit of Christ's love. Thus selfish  
profit shall not be the measure of  
success at all, but the attempted  
achievement of contribution to Christ's  
program for a just, brotherly so-  
ciety.""Today, friends! Let us swell in our con-  
tinental, soul swelling in its grandeur  
because for Christ and with Christ,  
Yesterday is irrevocable. Tomorrow  
is nothing. But today sweeps yester-  
day into advantage, today is the  
mother of tomorrow. Our today for  
Christ; thank God for its immeasur-  
able fullness!"DR. HALLOCK.  
FIRST CONGREGATIONAL.A HUMAN SOUL BROUGHT INTO FINEST  
FIBER BY SERVICE FOR OTHERS.  
MASTERPIECE OF EARTH.Dr. Leavitt H. Hallock preached at  
the First Congregational Church yes-  
terday morning on the subject "Mas-  
terpieces." Rev. Fred Staff of Sierra  
Madre preached in the evening on  
"Masters in the Loom." Dr. Hal-  
lock said in part:"The old patriarch thought men had  
done wonderful things in his day;  
wonder what he would think of mod-  
ern engineering feats.""The pioneer does necessary things  
only, but when prosperity comes he  
thinks of the things of the world. He  
builds a house, but only one. He  
builds a barn, but only one. He  
builds a church, but only one. He  
builds a school, but only one. He  
builds a bridge, but only one. He  
builds a road, but only one. He  
builds a city, but only one. He  
builds a nation, but only one. He  
builds a world, but only one. He  
builds a universe, but only one. He  
builds a God, but only one. He  
builds a Masterpiece, but only one.""An artist paints many pictures, but  
one masterpiece—an author writes  
many books, but only one 'Donnie  
Briar Bush.' In time a race con-  
sciousness develops and public  
achievements begin.""Transportation—cobwebbing the  
country from sea to sea with ribbons  
of steel. Giant keels plowing the  
main from continent to continent. No  
one untraversed, no river unex-  
plored. The motor car cuts up local  
spasms into a chopping knife, while  
longer ones are pared off by steam-  
ships and Pullmans to a minimum.""Great Cities—Immense aggregations  
of humanity like London with  
wards of 7,000,000; New York with  
5,000,000 and China with unnumbered  
thousands.""Religious architecture reveals mas-  
terpieces, such as Cologne, Milan and  
much-lamented Rheims.""Much more wonderful than all mat-  
erial masterpieces are human sys-  
tems of education and of government.""To transform an ignorant lad into a  
brilliant man of genius and of power  
is bigger work than building a bridge,  
and thus we demonstrate the vital  
fact that man's masterpiece is not  
anything which he builds; it is the  
man himself; transformed from em-  
bryonic impotence into nobility of  
principle and purpose.""A human soul brought into finest  
fiber by service for others, is the  
chief masterpiece of earth—joint pro-  
duct of God and man—destined to  
honor him and a noble immortality  
hereafter."REV. J. M. BARNHART.  
UNION AVENUE M. E. CHURCH.STORY OF JONAH AND THE WHALE  
SHOWS WE CANNOT GET AWAY FROM  
THE INNER VOICE OF GOD.Rev. John M. Barnhart, pastor of  
Union Avenue Methodist Episcopal  
Church, preached yesterday on  
"Jonah and the Whale." He said in  
part:"The inspired authors of the Bible  
used every form of human writing to  
impart instruction in righteousness.  
As one modern biblical scholar put  
it, they resorted to fables, riddles, en-  
igmas, allegories, parables, types, sym-  
bols and idealistic pictures worthy of  
the most transcendent genius.""Writers of history, fiction, poetry  
or science have used literary embel-  
lishment and rhetorical devices for  
their respective purposes no more  
freely than did the writers of Holy  
Scripture. To impart the grand truths of  
redemption.""Salvation is universal and took in  
the Ninevites as well as the Israelites.  
The chief purpose of the book was to  
teach that while God had called the  
Jews to make an important moral and  
religious contribution to the world's  
progress and redemption, he did not  
call them to exclusiveness, provincialism  
or self-righteousness.""The lessons of the book of Jonah  
are much needed today. There is too  
much of the Jonah spirit among the  
nations which leads the stronger ones  
to feel divinely called of God to de-  
stroy or dominate the weaker nations  
and to feel that the superior strength  
is an evidence of moral and intellec-  
tual superiority.""A proper view of the nations of  
the earth will show that each may  
learn something from the other. An  
appreciation of the merits of other  
peoples is necessary to check the van-  
ity of national egoism. Through pain-  
ful experiences the Jew had to learn  
that God had just as much love forthe citizens of Nineveh as for the  
dwellers of Jerusalem.""This book teaches another great  
fact of human life, namely, that in  
any way we choose to get away from  
the inner voice of God, who calls us  
to disengage ourselves, our efforts will  
be vain. We will be swallowed by the  
whale of adversity in whose belly we  
can do nothing except pray and med-  
itate."REV. W. L. Y. DAVIS.  
WEST ADAMS M. E. CHURCH.REMEMBER EMPHASIS PUT THAT TO  
FIND CHRIST YOU MUST LOOK  
WHERE YOU LOSE HIM.Rev. W. L. Y. Davis, pastor of West  
Adams M. E. Church, preached yes-  
terday on "The Lost Boy." He said  
in part:"St. Paul, Nicodemus had to be born  
again, other common folks better  
look to their Christian eagerness!""If virgins be shut out, no woman  
need study logic to find out where the  
finest finishing school finishes.""If the brilliant Gamaliel could not  
teach Paul how to ride through the  
world without a fall from his horse,  
I know not how other smaller fellows  
can ride into glory full tilt. It is  
John Wesley had to lose his way in  
order to see the kingdom of heaven,  
other folks better hunt up the moun-  
tain's bench. If a mother can lose  
Christ, who is immortal?""David committed his great sin  
when walking on the roof of his own  
house. A man's master is his wife.  
In the primrose path to lose his way!  
The prodigal lost Christ, not among  
the pigs, but in the old home when  
he left it. And he had to come  
back home to find him. Christ's moth-  
er had to come back and find him  
where she lost him in the temple!  
And a Gypsy, not a doctor of divinity,  
discovered it.""There are some men out West  
who can find him only by the way of  
Journey back East. B. Fay Mills  
wants to find him again, and he has  
come back to the Presbyterian  
temple and ministry, where he lost  
him! When you go off on the long  
journey of the prodigal, better buy a  
round-trip ticket to the Father's  
back through the gate you went out!""You may find him where the fash-  
ioners found him—by the seaside;  
you may find him where the blind  
man found him—just passing by; you  
may find him where the thief found  
him—on the cross; you may find him  
where Mary found him Easter morn-  
ing—risen, from a carpenter to a  
gardener—but whenever you find him,  
you can only find him where you  
lost him!"BOYLE HEIGHTS M. E. CHURCH.  
CHARACTER IS NEVER  
RATHER IT IS ATTAINED—IMMOR-  
TAL THINGS NOT ACCIDENTAL.Rev. W. E. Boyle, pastor of Boyle  
Heights M. E. Church, preached yes-  
terday on the subject, "The Gospel of  
Work." He said in part:"I have heard people say, 'Blessed  
be work.' The grief of life made toil  
a blessing. There was rest in the  
task. So far as good, but there is yet  
something better. To be a worker is  
something where there is neither burden  
nor sorrow. There is a gospel of  
work. Joseph and Mary were hap-  
py. Jesus was content and happy. He  
told them their sorrow was  
wasted. The gospel of work was in  
His heart. Every young man and  
woman should have a career. Chil-  
dren's Day is heading toward a  
busy career. It is worth our while to  
think of it as glad tidings. It is not  
grief but good.""We live in a world of work. The  
natural processes are not drift but  
energy. We breathe to live, we study  
to learn. We desire to be useful. Our  
character is never obtained, but  
attained. Wealth may be inherited or

## DIPHTHERIA AT JUVENILE HALL.

FIFTEEN CASES REPORTED IN THE GIRLS' WARD.

Institution is in Quarantine. Those Most Badly Afflicted are Quarantined in Peshouse at County Hospital—Vacation Time for the Youthful Offenders Now.

It is vacation time for juvenile offenders. They may be arrested, but they won't be held.

Juvenile Hall has gone into quarantine. Fifteen cases of diphtheria are in session there, with more prospects, and the yellow flag that flies outside the hall is the flag of freedom for all the young offenders now caught.

There is no place to put them. It is against the spirit of the police department to herd the youngsters with the old criminals in Central Police Station. The outside police stations are full, and accommodations do not recommend them as a special detention place for the persons under 18 years of age who have done something to attract the police.

So they are released in shoals as rapidly as they are caught, and there are nearly as many juveniles caught nowadays as older persons.

The first case of diphtheria was discovered nearly a week ago. Since then fourteen more have developed. All are in the girls' ward and every time a sore throat develops, the panic increases. Yesterday the health department took cultures from the throats of all in the hall. The sick of the juveniles have been taken to the quarantine ward of the County Hospital.

Twelve candidates for the Juvenile Hall were turned loose yesterday, in the custody of their parents, with the understanding they are to be returned as soon as conditions permit attention of their cases. Juvenile Officer Marden is considering the use of the Boyle Heights Police Station as a temporary home. The matter will be taken up with the Police Commission today.

### SAFE IS CRACKED.

Burglars Secure Goodly Sum but Overlook Checks Worth Several Hundred—Leave Finger Prints.

Working with a hammer and chisel, burglars some time yesterday afternoon broke open a small safe in the office of the Western Auto Electric Company at No. 297 West Pico street and escaped with \$250. The burglary was discovered by the foreman of the shop, A. W. Bellows, and reported to the police early last night.

The dial of the safe was cut off with a chisel and the inner door smashed with a heavy hammer. The tools used by the burglars could not be found by the police.

C. H. Devey, a member of the company, said the burglars overlooked checks amounting to several hundred dollars. He asserted the thieves must have been in the shop before as the safe is a small one and hid away in one corner of the shop, where it cannot readily be seen.

Detectives discovered finger prints on the face of the safe which may lead to an arrest or two.

### FREE-FOR-ALL FIGHT.

[BY DIRECT WIRE—EXCLUSIVE DISPATCH.] FULLERTON, June 26.—Six Mexicans employed on Bantech ranch got into a fight today while drinking and three were taken to the County Hospital. One had a broken jaw and the others were badly cut up. Two other Mexicans were landed in County Jail on charges of carrying the three. The men were paid off last night.

## FAMILY'S BIG EVENTS FALL ON SINGLE DATE.

This is the "Bunker Hill family."

Of Huntington Park, so called because of the surprising recurrence of the anniversary date of that battle in their personal histories. From left to right they are Mrs. Eugene DePrez, Mr. DePrez, Mabel Curtis Rapp and Mrs. Rapp.

Whether "occult forces" had anything to do with arranging the following list of births, marriages and anniversaries may be left to the astrologers, but here are the facts:

Mabel Curtis Rapp of No. 419 East Randolph street, Huntington Park, celebrated her fourth birthday last Thursday, the 17th. That same date, in 1864 her grandfather, Eugene DePrez of the same address, first saw the light. On the same date in 1866 Mr. and Mrs. DePrez were married.

Mr. DePrez was born at 2 o'clock in the afternoon, he and his wife were married at 2 o'clock in the afternoon and little Mabel was born at 2 o'clock in the afternoon all on the same date.

June 17. The little girl was born on the twenty-fifth wedding anniversary of her grandparents. She is the only grandchild. Grover Cleveland and Frances Folsom came pretty near to getting into this charmed circle for they were married June 2, 1886. Bunker Hill day, however, happened to make it exactly and Mr. DePrez when a boy was known as "Bunker Hill DePrez." Mabel Rapp was born in Huntington Park and four generations of the DePrez family live there. H. A. DePrez being among the first to locate in the newly opened city when it was laid out ten years ago. The members of this family assert it is both lucky and healthy to live here and they have a high regard for June 17, which comes in no other place in the world as it does in Southern California.

W. Blanchard, president of the American Opera Association; L. E. Behymer, vice-president of the same association, and a number of others who are prominent in musical circles here.

Fifty automobiles, in charge of Mrs. W. E. Mabee, were arranged for to take the visitors to their various hotels. Miss Frieda Percke secured the flowers with which they were showered. Mrs. Kinney, last night at the Alexandria, declared that never in the history of the federation has such enthusiasm been manifest over a convention as this time.

"You have accomplished wonders in a musical way in Los Angeles," she said. "We are looking forward to the greatest music festival in the history of the federation. The presentation of the prize opera alone is a feature which has never been a part of any previous festival, and besides this we have never presented a series of programmes made up entirely of the compositions of Americans as will be the case on this occasion. At the same time everything we are attempting, no matter whether it be in the domain of purely instrumental or vocal music, is on a larger scale than ever before."

### MOVIE MILESTONE.

Company Will Celebrate Anniversary with Big Banquet—To Announce New Plans.

Celebrating the passing of another milestone in the motion picture industry of Southern California, representative citizens from the various interests of the city will gather at the anniversary banquet of the Occidental Film Manufacturing Company, at the Hotel Clark on the evening of the 30th inst.

President H. C. Moore has sent out more than 100 invitations. The affair will be novel, and the ultimate possibilities of the "movies" will be shown in graphic manner.

Among those who have been invited as guests of honor are Mayor and Mrs. H. H. Rose, Mayor-elect and Mrs. Sebastian, Mr. and Mrs. B. H. Dyer, Mr. and Mrs. M. P. Snyder, Mr. and Mrs. W. M. Humphreys, Mr. and Mrs. John S. McGroarty, Rev. and Mrs. Baker P. Lee, Sheriff and Mrs. John C. Gilman, Mrs. Quentin Rowley, Mr. and Mrs. H. J. J. Briz, Gen. Robert Wankowski, Louis M. Cole, Mr. and Mrs. Lewis Cruikshank, Mr. and Mrs. John G. Bullock, George Rice, Judge and Mrs. James Gibson, John C. Austin and Mr. and Mrs. William Humphreys, Sr.

The company recently acquired a large tract of land at Monte Vista, upon which it is planned to erect new producing studios. Detailed plans are to be made public concerning these new ventures at the banquet.

### RODEO FOR PRIMA DONNA.

Moving-Picture Company Puts on Western Scene in Which Farrar Sees and Is Seen.

Geraldine Farrar, the grand opera prima donna, saw her first rodeo yesterday afternoon when the cowboys of the Jesse L. Lasky Company, for which organization the diva is appearing before the motion-picture camera, gave a Wild West exhibition in her honor at Griffith Park. Miss Farrar had no sooner arrived in Los Angeles than she expressed a desire to see a broncho breaking exhibition and the rodeo of yesterday was arranged in her honor by the cowboys of the film company.

Miss Farrar, Mrs. David Belasco and Mr. and Mrs. Morris Gest were given a ride in an overland stage coach, held up by bandits and rescued in true western fashion.

The diva was also treated to an exhibition of fancy roping, bucking and riding and at the conclusion of the celebration presented with a broncho by the admiring cowboys.

## THE CHARM OF MOTHERHOOD

Enhanced By Perfect Physical Health.

The experience of Motherhood is a trying one to most women and marks distinctly an epoch in their lives. Not one woman in a hundred is prepared or understood how to properly care for herself. Of course nearly every woman nowadays has medical treatment at such times, but many approach the experience with an organism unfitted for the trial of strength, and when it is over her system has received a shock from which it is hard to recover. Following right upon this comes the nervous strain of caring for the child, and a distinct change in the mother results.

There is nothing more charming than a happy and healthy mother of children, and indeed child-birth under the right conditions need be no hazard to health or beauty. The unexplainable thing is that, with all the evidence of shattered nerves and broken health resulting from an unprepared condition, and with ample time in which to prepare, women will persist in going blindly to the trial.

Every woman at this time should rely upon Lydia E. Pinkham's Vegetable Compound, a most valuable tonic and invigorator of the female organism.

In many homes once children there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

## TERRY AND M'MULLIN WIN SERIES FOR ANGELS.

ROWDY ELLIOTT  
OAK MANAGER.

Christian is Given His Uncon-  
ditional Release.

Squabbles with Leavitt is  
Stated as Cause.

Rumor that Del Howard may  
Out New Boss.

OAKLAND (Cal.), June 20.—Tyler  
Christian, it was announced today,  
has been deposed from the manage-  
ment of the Oakland club of the Pa-  
cific Coast baseball league and Harold  
(Rowdy) Elliott installed, at least  
temporarily in his place. Elliott was  
in charge of the team during the two  
games played today.

Rowdy Elliott,  
Who succeeds the deposed Tyler  
Christian as manager of the Oak-  
land baseball club. Rowdy's new  
job is temporary unless he shows  
the goods.

When the Oakland team went south  
that he was to be deposed but at  
that time the officials of the club  
refused to discuss the matter.

UNCONDITIONAL.

Christian was handed his uncon-  
ditional release today and did not ac-  
company the Oakland team when it  
departed for Salt Lake tonight. He  
told his former teammates that as a  
free lance he hoped to land a berth as  
pitcher in one of the teams of the  
Pacific Coast League.

Differences of opinion between  
Christian and Frank J. Leavitt, pres-  
ident of the Oakland club, are thought  
to have brought about the discharge  
of the former as manager. Christian  
is said to have resented sugges-  
tions from Leavitt as to the conduct  
of the team.

ELLIOTT CAME TO THE OAKS this  
season in a trade that sent Mike and  
Hettinger to Venice. His appointment  
follows a recently expressed desire  
upon the part of the Oakland man-  
agers to try the experiment of a play-  
ing manager.

Although it is understood that El-  
liott has been told that his appoint-  
ment is permanent, gossip has it that  
Oakland is after the services of Del  
Howard, manager of last year's San  
Francisco club.

The release of Christian marks the  
fourth managerial change in the Oak-  
land team in the last two years.

Charley Weadman is putting on a  
nightly vaudeville show at his Federal  
League bath park in Chicago. One  
Chicago newspaper gives him a top  
head notice, something no other  
vaudeville show in Chicago ever got  
within its recollection.

In order to boost the attendance at  
the Fed park in Baltimore, the "Go

management has issued buttons in-  
scribed, "I have been once, have  
you?" Is this meant as a confession  
or a boast?

Norman Macbeth,  
Who came home in time to win the title of golf champion of the Los Angeles  
Country Club in yesterday's play.

## NORMAN MACBETH WINS GOLF TITLE AT L. A. C. C.

Plays His Usual Remarkable Game—Everett Seaver  
Looks Like New Champion for a While and Loses Out  
by Last Putt—Armstrong is off His Game—Schnei-  
der, Pet Dark Horse, Turns in Low Score.

BY ALMA WHITAKER.

NORMAN MACBETH came home  
just in time to establish his right  
to the position of champion of  
the Los Angeles Country Club. He  
played a beautiful exhibition game,  
two rounds of 74 each, total 148.

Of course, everyone recognizes that  
Macbeth is the logical champion, it  
was only in the event of Arizona, de-  
termining him a day or two longer that  
a dark horse had a chance of match-  
ing a little glory.

Here is Macbeth's score:  
First round: 74—4—23  
Out: 4 5 4 4 4 4 4 4—35  
Second round:  
Out: 4 4 4 4 5 4 4—37  
Home: 4 2 6 2 4 4 4 4—37

He considered that that six at the  
twelfth in the second round "wrecked"  
his score, but it wasn't the sort of  
wreck that lost any lives, and many of  
us would delight in a little wrecking  
that achieved two strokes under par in  
two consecutive rounds.

But we had a narrow escape of wel-  
coming a new champion, for Everett  
Seaver surpassed his own best game  
and brought in 149 gross—78 and 71,  
the latter being the best individual  
round of the day. When Seaver was  
on the last green he called out to  
Macbeth to know what he must do to  
win. You must get a 78, to tie, he was  
told. Then he pressed just that fatal  
shade and missed a putt for a four at  
the eighteenth.

Seaver had played baseball the day  
before with fearful strenuousness, but  
his few of three in the last half  
showed no signs of fatigue, physical  
or mental. It is the most dashing  
game he has ever played. He has two  
handicap now, so his four for the two  
runs gave him a net 145, fourth best  
for the handicap.

#### NO HELP.

E. S. Armstrong, who begged  
off from baseball to save him-  
self for this golf championship,  
was quite a long way behind  
with 151—78 and 73. It is to  
be presumed therefore that if Seaver  
had not played baseball, we should  
now be lauding a new champion. A

## ANGELS DIVIDE UP WITH SEALS.

Curly Brown Pitches Rare  
Ball in the Morning.

Cap's Youngsters Slugging  
Demons in Afternoon.

Final Game Goes Eleven Hot,  
Eventful Innings.

BY HARRY A. WILLIAMS.

Although not billed as such, it  
proved to be Kids Day at Washington  
Park. Those surprising and proce-  
dious infants, Zeb Terry and Fred  
McMullen, beat the overhauling wad-  
ding out of San Francisco, while the  
veterans looked on and applauded.

By sheer batting these boys boosted  
the Angels into a 5 to 4 victory, which  
it took eleven innings to achieve,  
and prevented the Seals from bag-  
ging the fat end of the series.

This happened after the Angels  
had investigated a new party called  
Curly Brown in the morning, and  
found to their sorrow that they  
couldn't hit him. Brown comes from  
Bede. He won his first game west of  
Cincinnati by a score of 4 to 0.  
Brown has curly hair and pitches  
with his left hand. But for those re-  
centricities, he might easily be mis-  
taken for almost any of the common  
or garden variety of Browns which  
inhabit the face of the earth.

#### GENERAL.

It is well for a guy with a name  
like that to have some distinguish-  
ing feature, because Brown is a very  
common term and can be applied to  
millions of people. To refer to a  
bloke as Mr. Brown, is like referring  
to a watermelon or a canna, with-  
out explaining which particular  
watermelon or canna is meant.

McMullen, who has just finished  
cutting his teeth, made an immense  
trip in the eighth, driving two guys  
in ahead of him and tying the score.  
Then in the late eleventh, Zeb, who  
is so young that he goes to bed at 7  
o'clock every night, clicked off a sin-  
gle that sent Volter in from third  
with the winning run. This busted  
up the game with only one out, and  
left a lot of excess baggage on the  
base. These very full when Zeb  
made his hit, but, of course, the other  
two guys stopped when Volter  
crossed the plate, as it was impos-  
sible to use any more runs.

The batting of our kindergarten  
keystone combination made quite a  
hit with the crowd, it felt that  
something handsome should be done  
for them. There is talk of taking up  
a collection among the fans to buy  
Fred a pair of roller skates and

## RAMENTO MAY GET BACK IN COAST LEAGUE.

That Capital City may be Restored to Good  
Standing in Case Seattle is Added—Exhibition Games  
Not Baseball Enthusiasm—Darmody Returns  
to the North.

BY HARRY A. WILLIAMS.

Looking forward to the possibility that Capital City may be restored to good standing in the Coast League next season, the baseball enthusiasts of the city are busy planning for the future.

It is believed, however, that this shift in the Coast League scenery will be made within the next two weeks. The plan is to occupy the old park at Yermoland until next season when the new stadium will be torn down and moved back to the Angel city suburb.

No Retrenchment. Just because some of the minor league clubs in the East are hard up, the Coast League magnates do not intend to engage in any retrenchment through sympathy for them, according to Darmody.

The question of retrenchment was brought up at the meeting, and not a soul present was in favor of it. Our magnates will go along through the season on the present large scale, even if they have to dig down in their own pockets to keep the machine running.

Fleeced. Darmody was openly pleased with the strong finish of the Angels after a bum start against the Sox. The team looked almost human in the last four games. Despite this great burst of speed, however, he and President Powers are planning to upbraid the pitching staff. T. J. last night expressed it as his honest conviction that there would be a brand new right-hander with the Angels by the end of the week.

Legal Advice. Now comes William Dyer of Orange seeking legal advice, as follows to wit: "In a recently played game of baseball here, a question arose as to the correctness of the umpire's decision. There were three men on bases and one out. The batter missed the third strike, and the catcher dropped the ball. The batter, of course, was automatically retired. The man on third then ran home, and the catcher standing at the plate, did not touch him. The umpire called the runner out. The opposing team claims that the runner must stay on third. The same as he would if a fly was caught, before he could advance. What is the correct ruling?"

If the catcher did not touch the runner he was safe. There is no law, natural, legal or religious that prevents a runner advancing after a strikeout. He goes on at his own risk.

Popular Habit. The Angels have a peculiar habit of losing the first two games in a series and then coming along strong for the remainder of the week.

Nobody has been able to offer a satisfactory explanation of this seeming phenomenon. If there is ever a time when a guy should be strong and fond of play it is after a day of rest and recuperation. It may be that the athletes get rusty sitting around all day Monday with their ironclad contracts in their pockets.

SLAVERY FOUND  
IN BASEBALL.

NEW YORK, June 20.—Baseball slavery is being carried to extreme limits in the Central League, according to reports that have reached the headquarters of the Baseball Players' Fraternity. It is charged that the president of the league has issued an official order barring the wearing of caps by the players while stopping at hotels during trips about the Central circuit. The complaints do not state whether the players are obliged to wear straw or silk dome shades while en tour but it is known that caps of all forms and styles are barred. Whether the controversy will be settled by strike or arbitration has not yet been decided.

The order, however, is considered as likely to have a far reaching effect on the future of baseball. The players fear that other leagues will go the Central one better and demand that their employees wear frock coats, spats, wrist watches and other Rotten Row raiment once the players agree to discard caps for more formal headgear.

MANAGER MCGRAW PUTS IRON

Manager McGraw is putting the

Batteries—Rogge and Berry; Mosley and Haridon.

## NO BOOZE ON THE FAR WESTERN TRIP

MANAGER MCGRAW PUTS IRON  
HEEL ON HIS  
PLAYERS.

Manager McGraw is putting the iron heel on his players on the trip West, determined that they shall make a showing. The players were instructed to leave their wives at home, also that a new set of rules were in force, one of which is that not a glass of beer shall be drunk on the trip, under penalty of heavy fine. It is said that Larry Doyle was fined \$100 for his recent bender in stopping the return of a fly ball and thus forfeiting the chance of the Giants to win a game. McGraw has never been an easy boss, but now he is more severe than ever before. It was enforcement of these rules that gave McGraw his attack of Federalism.

## WILLIAM JAMES IS NOT ON THE JOB.

DRAWS HIS SALARY BUT FAILS  
TO WIN GAMES FOR  
BRAVES.

Before the season opened Bill James, one of the Braves' star pitchers, threatened to jump to the Feds. although he was under an ironclad contract to the Boston club. When the Feds refused to do business with him, because they couldn't, James reported to Stallings, declaring that he had made a mistake. So far the big pitcher has shown little of his former skill, with the result that the Braves have not been able to forge to the front. But James is walking up to the captain's office regularly to draw his salary, possibly forgetting that Major Outlaw and Stallings are paying him \$4000 a year to win games.

## TIGERS MUST WIN SEASON'S PENNANT.

"IF THEY DON'T, THEY SHOULD  
BE ARRESTED," SAYS  
DONOVAN.

"If the Tigers don't win the pennant this season," said Bill Donovan in a fanning bee, "they all ought to be arrested and put in jail. I've looked at all the clubs, and Detroit is the class of the league. Any pitcher that has behind him the sort of hitting that my old mates are giving ought to be fighting to get in there instead of wondering when his turn comes. Chicago looks pretty good, but was lucky against us. Boston hasn't got Detroit's offense. There are no other teams to consider, as far as the flag is concerned."

## KICKS ON HIGH PITCHING MOUND.

TOO MUCH ELEVATION IS A  
DETHIMENT TO  
CONTROL.

And now comes Jack Warhop with a protest on the high pitching mound at the Polo Grounds. Batemen have been complaining against the extreme height of the slab-firing line, but Warhop is the first pitcher to record a kick. When it is considered, however, that the Yank uses an underhand ball it can be readily seen that too much elevation would prove a detriment to control and effectiveness. As a rule the pitcher draws the benefits from a high mound, so far as general opinions are concerned.

## GEORGE KAHLER LIKES TO JUMP.

FINALLY WINDS UP ON THE  
PORTLAND COAST  
LEAGUE TEAM.

Pitcher George Kahler, who jumped to the Feds from the Cleveland American League team last year, then came back and later was shifted to the Cleveland Association team, has been sent on again, this time to the Portland Coast League team.

## COACH STANTON PLANS TO PRODUCE PLAYS ON ROAD.

Pomona's Athletic Director to Form a Company from  
College Actors and Travel Through Southern California  
this Summer, Producing First-class Dramas at  
Popular Prices—Directing Rehearsals Now.

(SPECIAL CORRESPONDENCE.)

CLAREMONT, June 20.—While Coach Pital of Occidental is spending his summer vacation in conducting a school for prospective football coaches, and Coach Glaze of U.S.C. is busy with the Redskins at Sherman Institute out in Riverside, Coach Stanton, the Old Fox of Pomona, is passing his time in a very different way. For the time being, the cares and worries of turning out championship football and track teams are to be forgotten, for Mr. Stanton has become a dramatic producer.

Coach Stanton's life reads like a romance. At different times he has been an actor, a minister, a Y.M.C.A. worker, a rancher, and finally a coach of athletic teams. Now he has entered a new field.

ALL HIS OWN. The Old Fox plans to have a company all his own on the road this summer. He has organized it entirely with college talent, and none of his stars are to be professionals. All the members of his company are in it just for the fun of it and for the experience, and no attempt will be made to make a money-making proposition out of the concern.

The new dramatic company has already begun rehearsals for its first play, which will be presented Monday night at Claremont. Following the home engagement, it will take the road for the rest of the vacation period. It will tour a seven-town circuit, playing once a week in such towns as Pomona, Redlands, Riverside, San Bernardino and Ontario.

## OAKS TAKE TWO GAMES FROM M'CREIDIE'S DUCKS.

(BY A. P. NIGHT WIRE.)

SAN FRANCISCO, June 20.—Oakland captured both games from Portland today, thereby winning the series five games to three. The score of the morning game was 6 to 1. The Oaks used four pitchers and the Beavers three. In the afternoon game the Oaks out-hit the Beavers and scored nine runs off their fifteen hits, as against but one made by the Portland team off ten hits. Johnston, Middleton and Hallyard clouted the ball for home runs. Scores:

Said president Joseph Sartori, is making himself even more popular than usual just now, for he has donated a handsome entrance to the Los Angeles Country Club driveway which will take the form of two great pillars.

## HAL CHASE EASES UP ON ALIMONY.

ACCEPTS CUT IN PAY AND DESIRES TO EVEN UP.

A New York judge has reduced the alimony that Hal Chase of the Buffalo Feds has to pay his wife from \$1200 to \$800 a year. It was estimated that Chase has accepted a cut in pay from the Buffalo club, though it can not be confirmed, and that this was the reason for his application for a reduction in the alimony payments.

# AT THE STAGE DOOR

Margaret Hamilton is to appear in a new play entitled "Sally Love" by Avery Hanger. The piece will be produced by Manager Morocco within the next month.

**Stage Penalties.**  
Maudie Allan is to tour this country next season in her new original comedy, which is to be produced in London this summer.

**"Gypsy" Goes.**  
Cecil Maude, who has been appearing in pictures for the Morocco-Bowring Company, has finished his photography work, and returns to New York today. From there he will proceed to London, where, if successful, he will take a chance on producing one or two new plays.

**Big Boy Now.**  
The Orpheum has another birthday this week, celebrating the opening of the present house, on June 15, four years ago. The passing years have left the Orpheum's whiskers unthatched.

**Big of Joy.**  
The "Kiss of Youth" was delightfully quoted by a tall house yesterday at the Burbank. It's a romantic tale of joy, in "The Kiss of Youth," his humor is broader than in "The Kiss."

**Will Search.**  
Billie Burke, who opens in "Jerry" at the Orpheum, tonight, will stop at the Hotel Maryland in Pasadena, and will motor back and forth.

**Good Old Boy.**  
"Lobengula," the oldest of Hawthorne's lions at the Orpheum, is as good as a dog, his owner claims. Lobengula once protected his master from a snarling leopard. The leopard was new to the act, and hadn't yet learned to behave in school, but made a wicked pass at the trainer as Hawthorne passed him in the cage. The trainer then brought his new dog down hard on the leopard's back. The leopard was cowed, and has ever since shown intense respect for "Lobengula."

**New "Punchers."**  
Julia Dean, Marie Tempest and Frank Koppert have arrived at the Orpheum. This summer, Miss Dean is an original character by Peter H. Kane, and the other two are in character roles.

**Water Calf.**  
Water Calf is breaking up his troupe for "The Long Last." He says it's a painful process both for himself and the troupe. He dwells in a flat, and yesterday a brother fatigued himself at the door and inquired if he should send a plumber. "Is it as bad as that?" "Why I thought the bathroom pipes were out of order," quoth the friend. "There was such a funny odor. But I suppose it was only the parrot again."

**Back to Nature.**  
Mr. McGraw, author of the "Mystery Play," has again sought his verdant home further to recuperate from his recent illness, and last night George Cabot, Charles Elder, Miss Del Valle and Miss La Valera motored up to pay him a visit.

**Miss Gay.**  
Miss Gay with his group of forest-hunters made South African lions in one morning, and yesterday, at the Los Angeles arena, he made a short vacation.

**Madness.**  
Madness will arrive on July 19 to appear at the Orpheum in "War of the Worlds," the most talked of war drama of the season.

**Pop of Ruth.**  
Pop of Ruth St. Denis will appear in Greek and oriental dances at the old Normal school building next Wednesday evening, under the auspices of the Juvenile Exposition.

**See Staff.**  
Several hundred camels and horses were used in the caravan scenes on the desert in the "Arab," the photograph which appears at Tally's this week.

**Edgar Selwyn himself plays the lead.**  
Edgar Selwyn himself plays the lead.

**Some Show.**  
Valencia Surratt is shortly to appear at Miller's in her first picture, "The Soul of Broadway," she appears in a repertoire of 100 and different gowns.

**To Be or Not.**  
Four years and three weeks ago Althea, the psychic, was at Pasadena, and in reply to a question publicly foretold that Woodward Wilson would be the choice of the people for the next President. Althea is at Pasadena again this week. Will somebody please ask her if she is still of the same opinion?

**Spoke.**  
David Griffith spoke at the grave of Elmer South last Friday.

**Outdoors.**  
A Midsummer Night's Dream will be produced at Eagle Rock by the Civic Repertory Company, under the direction of Reginald Pole, on July 1 and 10.

**There is a big natural amphitheater at the foot of Eagle Rock, where the fairy fantasy will be staged, and here a huge stand, capable of accommodating 10,000 spectators, is to be built.**

**One hundred and fifty people will take part in the great picnic.**

**Frank Bacon of "Fortune Hunter" was welcomed yesterday at a most pleasing addition to the Burbank company.**

**The four Amaranths, dancing at the Orpheum, have a father, three brothers and several cousins in the**

great European conflict. They have heard no word from them for several months.

**Long and Short.**  
The elongated Keith and the gentle Dill arrived in Los Angeles yesterday morning and put on a show at the Orpheum last night that makes their former efforts look like a 50-cent calico shirt after a hard day's wash.

**Hard on Louis.**  
Louis Robinson takes four inches off his height by cranking up his legs and stooping his shoulders in "The Kiss of Youth."

**"Is it hard?"** repeats Mr. Robinson. "Well, you just try it. It's worse than Richard III."

## NESS LEADS SLUGGERS OF PACIFIC COAST LEAGUE.

NESS of Oakland is the high leader among the sluggers of the Pacific Coast League with a grand average of .378. Johnston, his best-foisted team-mate, is only a few points behind him.

Maggert is the best of the hitters on either of the two local teams, his average being .317. But above him is a list of San Francisco, Salt Lake and Portland players. Willett is the only Tiger above the .300 mark with Dick Hayles just below it.

Jack Ryan of the Angels continues to be the slugging pitcher of the league, as he has been since the memory of man.

Wolverton is the first name on the roll. That is because Wolverton decides whether he will bat or not. He never thinks of sending himself to the plate unless he is feeling strong as an eagle of eye, and the opposing pitcher looks like the morning after the night before.

**GOOD PITCHER FOR A FIRST BASEMAN.**  
MANAGER RICHIEY WOULD LIKE TO SWAP FOR A PITCHER.

Manager Richiey of the Browns has one perfectly good first baseman he would like to swap for a pitcher. Kaufman is the man. He has done well with the Browns this spring, but he is not a pitcher. Richiey would like to swap him for a pitcher.

**JOSEPH JACKSON ON FIRST BASE.**  
BOMERS FEELS HIS JUDGMENT HAS BEEN SOMEWAT VINDICATED.

President-Manager Bomers of the Cleveland Indians feels his judgment has been vindicated in one thing at least—placing Joe Jackson on first base. All accounts from Cleveland agree that Joseph is some first sacker and also quite happy at being so near the grand stand all the time. Now, if he just doesn't get the managerial bug in his bonnet.

**GRIFFITH WANTS A LOT MORE HITTING.**  
JOHNSON IS THE ONLY RELIABLE SLUGGER ON THE SENATOR TEAM.

Clark Griffith is looking for more hitting, so he has put Alva Williams back on first base in place of Chick Gandil and it also is suggested that Walter Johnson might be used in the outfield as a regular thing when not pitching. Johnson seems to be about the only reliable hitter on the Washington team, as well as its chief defensive factor.

**PLAYERS LIMIT TO BE FIRMLY UPHELD.**  
DISOCCATED FRECKLES WILL NOT BE ENOUGH EXCUSE FOR "DRABILITY."

President Tener has a plan to curb abuse of the "disability list" inaugurated by National League team managers to evade the twenty-one-man limit. He proposes a rule that will specify a definite period that a player put on the disability list must stay out of the game. This will prevent it from being used by players being listed as "disabled" because of toothache, dislocated freckles, etc.

and Horn walked Ryan. At this point Corban believed that he detected a trick of waiting on the part of Spider, and yanked him. This may have been the logical move with the evidence at hand, but it proved disastrous. Fanning went in, and men have been arrested for much less than the things which we did to Spider. Spider promptly asked him for a single, saying: "Boles, McMillen then came along and tore off a beautiful triple to right center. This chased Ryan and Spider away, and did the count. This also brought Spider face to face with the old fact that he would be charged with the defeat if he lost, and he fanned Walter Koerner failed to hitman for the third out.

The end of the round found the fans drifting at the mouth, but they were compelled to wait three more innings for the final return. Spider, in the ninth, and was fanned standing. Otherwise, things remained calm until the eleventh. McMillen opened this inning with a drive over second, Ryan came in with one hand, but his throw—he had no time to make a good one—quilted Helman away from first. It was a legitimate single. Walter tried to sacrifice, but Spider nailed his hunt and threw to Corban for a forecourt on Mac. Koerner still leading the crisis for the single. The idea that Spider should pass Ryan to get at him seemed to be a poked a smile over this. Walter came home without protest. WORLD'S NEWS

**BY DIRECT WIRE—EXCLUSIVE DISPATCHES**  
NEW YORK, June 20.—The Standard crew upset all precedents at Poughkeepsie today. The westerners went to church in the morning and then spent the afternoon practicing rowing on the Hudson. Never in the history of the race has a college crew rowed on Sunday before.

"My crew row rain or shine," said Coach Guerra of Stanford. "We never discriminate in favor of weak days. The crew is trained this way on the Stanford farm and why change here, especially when the race is only ten days away and the men, overweight and out of condition from the long trip?"

Putting it modestly Stanford's crew made a very favorable impression upon New York rowing circles when the Cardinal skiff took its first workout after a half-day wait for the delayed start.

The arrival of the westerners became the chief topic of conversation for the time being. The regular skiff-shake-ups which the Columbia and Pennsylvania crews have been undergoing at the hands of their coaches.

The Stanford skiff is declared to be the heaviest combination that has ever set in a shell on the Hudson in the memory of the present generation.

**MOTORBOAT MAKES NEW SPEED RECORD**  
NEW YORK, June 19.—The motorboat rumbler Eastern Star made what is said to be a new record tonight in winning a race from New York to Albany and return, 378 statute miles, in fourteen hours, forty minutes and fifty seconds. The Amorita finished second in fifteen hours, four minutes and twenty seconds.
